

# MILLEU®

FALL 2024

Nicola Harding's role also involved furnishing and restoring guest cottages on the property, some of which were former agricultural structures. This page: In one of the kitchens, she positioned low- and high-level wall lights for ease of work and to establish mood. A living nook off of the cottage kitchen (opposite) is adorned with colorful baskets. Harding's NiX line of furniture is used throughout the project, notably a coffee table made of oiled oak.

Opposite: A view from the primary bedroom into an anteroom, which serves as a sitting area. A large rattan hanging lamp is suspended over the bed. The walls feature a textured fresco-like finish. This page: The freestanding tub in the primary bath features pink legs. The faucets and hardware are from Waterworks. An antique slipper chair is paired with an antique martini table.
